To the people who knew Stephen, he was the least likely to rob a bank - for one, he was the son of a New York City cop. And because he was a trader on Wall Street in the big money world of commodities, he wouldn’t have to steal anything. But those closest to him didn’t know was that he was living a secret life. Stephen had worked for a trading company, but had

become self-employed and was betting his own money on the future price of oil. He was doing well, but he didn't plan ahead. He purchased Jeanne her dream home and their mortgage tripled. As their other expenses increased, Stephen struggled to keep up. He lost so much money that the commodities exchange barred him from the floor.
